DWARFER DWARF FRUIT TREES

Just the trees for your Victory Garden. Whether your space is small or large—grow an orchard in your yard. Extremely Dwarf trees grow less than half as tall as standard size trees—bearing a generous crop of bigger, more luscious and richly colored fruit than larger trees do. No waiting years for fruit—dwarf fruit trees come into bearing very early—usually the second year after planting. Plant Dwarf fruit trees now and get extra new growth and perhaps fruit the first year—but, surely fruit the following year.

Leuthardt's Dwarf fruit trees are all healthy, hardy specimens, carefully chosen and tried for their suitability to this country's soil and climate. It will pay you to plant Northern grown fruit trees that have proven most satisfactory to growers throughout the United States because of the extra strength and hardiness our rigorous climate develops in them.

The Dwarf Apple trees we offer are grafted on the Juan de Metz root stock which is the pure strain selected by the East Malling Research Station in England. This root stock is the real dwarf understock making our trees very dwarf in growth and far superior in quality. Our pears are grafted on Quince, Peach, Apricot and Nectarine varieties on Almond, and Plums on St. Julien.

Select and grow the very choicest varieties which are neither to be obtained in the stores or never reach the markets because due to their very fine qualities they cannot be used commercially. Only the Home owner can grow these special varieties and let the fruit stay on the trees until they have reached their peak of ripeness and flavor. Until you can enjoy picking and eating, tender, juicy, fully ripe fruit from your backyard—you will never know what the real fresh fruit flavor is like.

When you buy a Leuthardt's Dwarf fruit tree, you can rest assured you are dealing with a reliable house built through hard work, honesty and fair dealings. You will find our stock sturdy, heavy rooted, true to name and quality, and free from diseases. Our 17 years of progress, satisfied customers and repeated orders is our guarantee. You will be delighted with our fine class of nursery stock.

BLUEBERRIES

Concord — Jersey — June — Rancocas — Rubel
(For best results plant 2 or more)

3 Year Old, No. 1	each \$2.25
3 Year Old, No. 1	3 for \$6.00
4 Year Old, No. 1	each \$3.45
4 Year Old, No. 1	3 for \$9.00

RASPBERRIES

Cumberland, Midseason, Black	10 for \$1.80
Sodus, Midseason, New Purple	10 for \$1.80
Indian Summer, Everbearing Red	10 for \$1.80
Marcy, Midseason, Red	10 for \$1.80
Lathan, Midseason, Brilliant Red	10 for \$1.50
Taylor, Midseason, New Red	10 for \$1.50

STRAWBERRIES

(Once Transplanted Heavy Plants)

Premier (very early) deep red

Fairfax (early) light red

Catskill (midseason) dazzling red

Senator Dunlap (late) very dark red

One dozen for \$2.25 100 for \$8.00

GRAPE VINES

(Strong Rooted, 2 Year No. 1 Vines)

Each 65 Cents 3 for \$1.50

Coco, early, rich red wine grape

Catawba, late, dark purplish grape

Delaware, midseason, red

Concord, midseason, black with blue bloom

Fredonia, real early, black

Moore's Early, black with blue bloom

Niagara, midseason, yellowish white

Portland, earliest white grape

NOTE: All shipments are made via Parcel Post or Express Collect. Add 5% to total order for packing.
